Senior High School
- Activities and societies: Multimedia Club. Proficient in videography and directing, with extensive experience in conceptualizing, planning, and executing high-quality video content.

Professional Experience

Frontend Developer – Gradin Digital Agency (Freelance)
Apr 2025 – Present
- Developed and maintained dynamic and responsive web applications for global clients using Vue.js 3, the Composition API, and TypeScript.
- Implemented Pinia for modular and reactive state management.
- Integrated RESTful APIs and handled async data flow.
- Collaborated with backend and UI/UX teams for pixel-perfect results.
- Applied best practices with Tailwind CSS.
- Participated in sprints, code reviews, and daily stand-ups. Git & GitLab.

Frontend Developer – Monago (Intern)

Apr 2025 – Jul 2025

- Developed and maintained a modular web application using Next.js.
- Implemented centralized state management with Zustand.
- Integrated RESTful APIs using SWR for efficient data fetching and caching.
- Applied i18n for multilingual support and better accessibility.
- Built responsive UI with Tailwind CSS and shadcn components.
- Collaborated in a Scrum team using Git and GitHub for version control.
- Participated in sprint planning, daily stand-ups, and code reviews.

Frontend Developer – Bengkel Koding, UDINUS (Intern)

Sep 2024 – Present

- Built responsive web interfaces using Next.js, React.js, and Tailwind CSS with shadcn components.
- Integrated RESTful APIs with SWR for efficient client-side data fetching.
- Collaborated with backend developers for seamless API integration.
- Managed codebase with Git and GitHub in a structured workflow.

Fullstack Developer – Freelance

Aug 2024 - present

- Developed and maintained fullstack web apps with Next.js and Laravel stacks.
- Document all development processes and maintain project organization for clients.
- Collaborate with clients and team members to ensure project alignment and quality standards are met.

Laboratory Assistant – Dian Nuswantoro University

Aug 2023 – Sep 2024

- Assist lecturers in preparing and managing the Introduction to Information Technology practicum. Help students use hardware and software related to the course, such as Microsoft Office (Word, Excel, PowerPoint, Access), IBM SPSS, Wordpress.

Organizational Experience

Core Team, Academy Division – Google Developer Group on Campus

Aug 2024 – Present

- Designed AI/ML workshops; mentored students in Workshop Build with AI titled "Enhancing React Applications with Gemini Integration".
- Developed learning resources and coordinated sessions with guest speakers.

Head of Web Division – Dian Nuswantoro Computer Club

Jul 2023 – Jul 2024

- Led the Web Division and coordinated internal web projects.
- Taught web development to 80+ students through hands-on sessions.
- Maintained and improved the organization's official website.
- Assigned tasks and managed team workflows for on-time delivery.
- Supported team members with technical guidance and mentorship.

Project Experience

Rain Boutique App   **Apr 2025**
Frontend Developer
Developing an internal management system for a boutique business based in Surabaya, covering warehouse, cashier (POS), and admin operations. Focused on building modular interfaces and efficient workflows tailored for retail use.
- TechStack : Vue, TailwindCSS

Imago Wellness Coaching   **Apr 2025**
Frontend Developer
Worked on a global wellness coaching platform that offers online sessions with health experts. Contributed to building additional wellness survey features for personalized user experience. UI was implemented based on Figma designs.
- TechStack : Vue, TailwindCSS
- Apps Url : https://imagowellness.co.nz/

Konteks   **Apr 2025**
Frontend Developer
A web-based solution to help businesses manage inventory and operations efficiently. Integrated with AI-powered tools to automate and streamline document processing.
- TechStack : Nextjs, TailwindCSS
- Apps Url : https://app.konteks.biz/

STI Apps   **Feb 2025**
Frontend Developer
Developed a web application for academic program information and final year project management at UDINUS
- TechStack : Nextjs, TailwindCSS
- Apps Url : https://sti.dinus.id/

Widya   **Jan 2025**
Frontend Developer
Developed an edtech platform that bridges access to Indonesian arts and cultural education through interactive media and AI integration. Key features include structured video-based courses with quizzes and final submissions, an AI-powered chatbot (Gemini) for contextual assistance, automated task review, and manual mentor evaluations with certification upon completion.
- TechStack : Nextjs, TailwindCSS
- Apps Url : https://widya-senikita.vercel.app/

Bengkel Koding VSA (Virtual Smart Assitant)   **Oct 2024**
Frontend Developer
Developed an interactive conversational bot interface powered by Google's Gemini LLM, with added facial recognition capabilities using FaceNet and YOLO models. The bot provides personalized user interactions by recognizing and communicating with each user based on facial features. The application was developed using libraries like React.js to build the interface, with backend API integration with FastAPI.

- TechStack : React, TailwindCSS

Senikita   **Sep - Oct 2024**
Frontend Developer
Developed an e-commerce platform that focuses on selling Indonesian arts, crafts and cultural services.
- TechStack : Laravel, React, TailwindCSS, MySQL, TensorflowJS, Xendit
- Apps Url : https://senikita.my.id/

Studynest   **Jan - Apr 2024**
Frontend Developer
Developed an educational platform designed to help users learn effectively through various proven learning techniques, such as the pomodoro technique and the feynman technique.
- TechStack : Laravel, AlpineJS, TailwindCSS, MySQL
- Apps Url : https://studynest.dnccudinus.org/

DNCC Personal Website   **Jul 2023**
Fullstack Developer
Developed a website to showcase DNCC's organizational profile, divisions, events, team members, and articles.
- TechStack : CodeIgniter4, AlpineJS, TailwindCSS, MySQL
- Apps Url : https://learn.dnccudinus.org/
